CITTIO CEO JAMIE LERNER TO SPEAK AT DATA CENTER WORLD

Company Founder to Address Latest Challenges to Effective Monitoring of Today's Distributed Networks

LAS VEGAS, Data Center World Expo, March 26, 2007 – CITTIO, the innovation leader in automated network and systems monitoring software, today announced that company founder and CEO Jamie Lerner will speak this week at AFCOM's Data Center World® Expo, which opened here yesterday at the Las Vegas Convention Center. CITTIO will also be exhibiting at the show from Booth #826, giving demonstrations of the company's WatchTower® automated enterprise monitoring solution to interested attendees through Thursday, March 29th.

Scheduled for tomorrow, Tuesday, March 27th, Mr. Lerner's presentation will focus on effective best practices for monitoring today's dynamic and highly distributed IT networks. Details on Mr. Lerner's session are as follows:

Who: Jamie Lerner, Founder and CEO, CITTIO, Inc.

What: Best Practices: "Addressing the Challenges of Distributed IT Networks"

Where: Data Center World Expo, Room S231, Las Vegas Convention Center

When: Tuesday, March 27th, 2:45-3:45 p.m. PDT

For many organizations today, IT networks are extended across multiple branch offices, store sites and geographic locations, especially in industries such as retail, manufacturing and telecommunications. Drawing on his first-hand experiences being frustrated by static, manual approaches to network monitoring; Mr. Lerner will discuss the complexities of keeping tabs on IT in constantly evolving environments as well as new, automated approaches for gaining a reliable, ongoing view of the network across sites, time zones and systems.

About AFCOM's Data Center World Expo

Data Center World® is presented by AFCOM, one of the most respected authorities in the data center industry. This bi-annual event was launched in 1981 with the goal of providing a hands-on educational program to enable data center professionals to better balance the key components of running a data center: management, business and technology. Conference sessions, which are presented by more than 45 industry experts, cover a mix of these three critical issues, with a particular emphasis on management and technology topics. For more information on this event, please visit www.datacenterworld.com.

About CITTIO, Inc.

CITTIO is an award-winning provider of innovative, automated network and systems monitoring software for companies with complex networks, distributed systems and wide varieties of network devices. CITTIO delivers fast, enterprise-class monitoring for the modern datacenter and network by automating the otherwise manual network discovery, configuration, and monitoring process with an agentless, 100 percent Java-based software platform. Customers include Blue Cross/Blue Shield of Hawaii, Capitol Advantage, DemandTec, Five Mile Capital, National Parks Conservation Association, Pacific Sunwear and The Gymboree Corporation. CITTIO is a private company headquartered in San Francisco and is venture-backed by JK&B Capital and Hummer Winblad Venture Partners. For more information, please visit www.cittio.com.
