CITTIO CEO JAMIE LERNER TO SPEAK AT NATIONAL CONFERENCE ON DATA CENTERS – OUTLOOK AND TECHNOLOGY 2007

***Company Founder to Share Insight on Best Practices for
Network and Systems Monitoring in Data Center Environments***

ARLINGTON, VA., National Conference on Data Centers, May 9, 2007 — CITTIO, the innovation leader in automated network and systems monitoring software, announced that company founder and CEO Jamie Lerner will speak today at the National Conference on Data Centers – Outlook and Technology 2007, a conference by *The Homeland Defense Journal*, at the Sheraton National in Arlington, Va.

Scheduled for 11:30 a.m. EDT, Mr. Lerner's presentation will focus on effective best practices for monitoring today's dynamic and highly distributed IT networks. Full details on Mr. Lerner's session are as follows:

Who: Jamie Lerner, founder and CEO, CITTIO, Inc.

What: "Best Practices for Network and Systems Monitoring"

Where: National Conference on Data Centers, North Ball Room, Sheraton National in Arlington, Va.

When: Wednesday, May 9th from 11:30 a.m.-12:15 p.m. EDT

Mr. Lerner's presentation will cover best practices he learned firsthand while managing thousands of servers in his previous position as CTO of a hosted services provider. While the data center environment has changed dramatically in the past 10 years, the software, systems and operations models have room to improve. Downtime is a massive cost to organizations world-wide and proactive monitoring of networks, applications and servers is the best way to avoid it.

About The National Conference on Data Centers

The National Conference on Data Centers focuses on Physical and IT Security Convergence. Data centers have taken on new directions due to increased awareness of the need for corporate COOP and Continuity of Government. Add to this increased security risks, infrastructure concerns, insider threats, data accumulation, platform options, and one can see that IT and data center managers are facing many challenges. This informative event will focus on emerging data center technologies that will serve as enablers of change in tomorrow's data center.

About Market*Access International

Market*Access International is the leading media company serving the homeland security industry. They publish *The Homeland Defense Journal*, which form the leading resources facilitating communication among all levels of government concerned with homeland security, covering the issues and the technology, solutions, policies, people, case studies and events affecting that community.
